3. The Company's financial position and operating results

The Company's financial position and its operating result for the six-month period ended 30 June 2024 are reflected in the accompanying interim financial statements.

4. Events subsequent to the balance sheet date

There have been no significant events occurring after the balance sheet date which would require adjustments or disclosures to be made in the Notes to the interim Financial statements

5. Auditors

AFC Vietnam Auditing Company Limited has been appointed to review the Company's interim financial statements for the six-month period ended 30 June 2024.

6. Statement of the Board of General Directors' responsibility in respect of the interim financial statements

The Board of General Directors of the Company is responsible for preparing the interim financial statements which give a true and fair view of the financial position of the Company, as well as of its operation results and its cash flows for the six-month period ended 30 June 2024. In preparing those interim financial statements, the Board of General Directors is required to:

- Select suitable accounting policies and then apply them consistently:
- Make judgments and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- Prepare the financial statements on the going concern basic unless it is inappropriate to presume that the Company will continue in business; and
- Design, implement and maintain the Company's internal control for prevention and detection of fraud and error to preparation and presentation of the financial statements.

2

THE BOARD OF DIRECTORS' REPORT

The Board of General Directors is responsible for ensuring that the proper accounting records are kept which disclose, with reasonable accuracy at any time, the financial position of the Company and to ensure that the accounting records comply with the Vietnamese Accounting System. The Board of General Directors is also responsible for managing the assets of the Company and therefore has taken the appropriate measures to prevent and detect frauds and other irregularities.

The Board of General Directors confirmed that the Company has complied with the above requirements in preparing the accompanying interim financial statements.

7. Approval of the interim financial statements

The Board of Directors hereby approves the accompanying financial statements which give a true and fair view of the financial position of the Company as at 30 June 2024, its operation results and cash flows of the Company for the six-month period ended 30 June 2024 in accordance with the Vietnamese Accounting Standards, Vietnamese Accounting System and comply with relevant statutory requirements relating to the preparation and presentation of interim financial statements.

No: 206/2024/BCSX-HCM.01387

REPORT ON REVIEW OF INTERIM FINANCIAL STATEMENTS

To:

The Shareholders, the Board of Directors and the Board of General Directors Mekophar Chemical Pharmaceutical Joint-Stock Company

We have reviewed the accompanying interim financial statements of Mekophar Chemical Pharmaceutical Joint-Stock Company ("the Company"), prepared on 14 August 2024, as set out from page 5 to 38, which comprise the Interim Balance sheet as at 30 June 2024, the Interim Income statement, the Interim Cash flow statement for the six-month period ended 30 June 2024 and the Notes to the Interim Financial statements.

The Board of General Directors' responsibility

The Board of General Directors of the Company is responsible for the preparation and fair presentation of these interim financial statements of the Company in accordance with the Vietnamese Accounting Standards, Vietnamese Accounting System and comply with relevant statutory requirements to preparation and presentation of the financial statements and for such internal control as the Board of General Directors of the Company determines is necessary to enable the preparation and presentation of these interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion these interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standards on Review Engagements No. 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit Accordingly, we do not express an audit opinion.

Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements do not give a true and fair view, in all material respects, of the interim financial position of Mekophar Chemical Pharmaceutical Joint-Stock Company as at 30 June 2024, and of the interim income statement and their interim cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, Vietnamese Accounting System, and the statutory requirements relevant to the preparation and presentation of interim financial

For the six-month period ended 30 June 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

3.2 Comply with the Vietnamese Accounting Standards and Vietnamese Accounting System

The Board of General Directors is ensure that complied with the Vietnamese Accounting Standards, Vietnamese Accounting System according to Circular No. 200/2014/TT-BTC, Circular No. 53/2016/TT-BTC and as well as the guiding implementation of Vietnamese Accounting Standards issued by the Ministry of Finance in relating to the preparation and presentation of financial.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Basis of preparation of the financial statements

The financial statements are prepared on the accrual basis (except for information relating to cash flows).

4.2 Foreign currency transactions

In this period, transactions in currencies other than VND during the fiscal year have been translated into VND at exchange rates ruling at the date of the transaction. At the end of the accounting period, the balances of assets and liabilities denominated in foreign currencies are translated into VND at the buying exchange rate and selling exchange rates quoted by the commercial bank where the Company often has transaction prevailing on this date.

Foreign exchange differences arising during the year from transactions in foreign currencies are recognized in the financial income or expenses. Exchange differences arising from revaluation of monetary items denominated in foreign currencies as at the end of fiscal year after offsetting between increase and decrease difference is recognized in the financial income or expenses.

4.3 Cash and cash equivalents

Cash comprises cash on hand, cash in banks (demand deposits) and cash in transit. Cash equivalents are short-term highly liquid investments with an original maturity of three months or less which are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value at the report date.

4.4 Financial investments

Trading securities

Trading securities include stocks and bonds listed on the stock market; securities and other financial instruments held for trading purposes (including securities bought and sold for profit with a maturity of more than 12 months).

Trading securities are recorded at cost, including: Purchase price plus purchase costs (if any) such as brokerage expense, transaction expense, information provision, taxes, and banking fees. The original price of trading securities is determined according to the fair value of the payments at the time of the transaction. Trading securities are recorded at the time when investors have ownership, specifically: Listed securities are recognized at the time of order matching (T+0) and unlisted securities are recorded at the time of official ownership in accordance with the law.

Provision for devaluation in value of trading securities is made for possible loss in value when there is firm evidence of the market value of those securities held by the Company for trading purposes at the time of preparation of the financial statements.

Held-to-maturity investments

Investments are classified as held to maturity when the Company has the intention and ability to hold to maturity. Investments held to maturity include: bank deposits with a term (including treasury bills, promissory notes), bonds, the preferred shares which issued compulsory acquisition at a certain point in the future and loans held to maturity for the purpose of collecting interest periodically and other held to maturity investments.

For the six-month period ended 30 June 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

Investments held to maturity are initially recognized at cost including purchase price and the expenses related to the purchase of investments. After initial recognition, these investments are stated at recoverable value. Interest income from investments held to maturity after the acquisition date is recognized in the Income statement on an accrual basis. Rates enjoyed before the holding is deducted from the cost of acquisition.

When there is strong evidence suggesting that part or all of the investments may not be recoverable and the damage can be measured reliably, the loss is recorded in financial expenses in the year and reduced directly to investment value.

When an investment is liquidated, the difference between the net disposal proceeds and the carrying amount is recognized as income or expense.

Investments in subsidiaries

Subsidiaries are controlled by the Company. The control is achieved when the Company has the ability to control the financial and operating policies of the investee enterprise so as to obtain economic benefits from the operation of this enterprise.

Investments in subsidiaries are initially recorded at cost, including purchase price or capital contributions plus costs directly attributable to the investments. In case of investments in non-monetary assets, the cost of the investment is recorded at the fair value of non-monetary assets at the time they occur.

Provision for investment losses in subsidiaries is made when the Company receiving the invested capital suffers a loss, leading to the possibility of the Company losing capital or when the value of investments in subsidiaries decreases in value.

The basis for making provision for investment losses is the financial statements of the invested company.

Investments in other entities

Investments in other entities are investments in equity instruments of another entity but the Company does not have control, joint control or significant influence over the investee.

These investments are initially recognized at cost, which includes the purchase price or capital contribution plus any directly attributable costs of the investment. The Board of Management reviews these investments to recognize any provision at the end of the accounting period.

Provisions for loss of investments in equity instruments of other entities are made as follows:

- For an investment in listed shares or the fair value of the investment is reliably determined, the provision is based on the market value of the shares.
- For investments whose fair value cannot be determined at the time of preparing financial statements, provision is made based on the investee's loss with an allowance equal to the difference between the actual contributed capital of the investee and the investor multiplied by the Company's capital contribution ratio compared to the total actual contributed capital of the parties in the other entity.

Increase or decrease in provision for diminution in value of investments in other entities have recorded at the end of the fiscal year, and is recognized in the financial expense.

4.5 Receivables

Trade and other receivables are stated at cost less provision for doubtful debts.

For the six-month period ended 30 June 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

The classifications of receivables are trade receivables and other receivables, which complied with the following principles:

- Trade receivables reflect the nature of the receivables arising from commercial transactions with purchase sale between the Company and an independent purchaser.
- Other receivables reflect the nature of the receivables arising from non-commercial transactions, and not to be related to the purchase sale transactions.

The provision for doubtful debts represents the estimated loss due to non-payment arising on receivables that were outstanding at the balance sheet date. Increases and decreases to the provision balance are recognised as general and administrative expense in the Income statement

4.6 Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost of inventories is determined as follows:

- Materials, goods: comprising all costs of purchase and related expenses directly incurred in bringing the inventories to their present location and condition.
- Finished goods: comprising costs of raw materials, direct labor and general production costs directly related to the production process.
- Work in process: including raw materials expenses, direct labor and production expenses.

Net realisable value means the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

The Company applies the perpetual inventory method of accounting for inventories and the cost is determined on the weighted average method.

Provision for decline of inventories is made for each inventory with the cost greater than the net realisable value. Increase or decrease in the balance of provision for decline of inventories should be set aside at the fiscal year end and is recognized in cost of goods sold.

4.7 Prepaid expenses

Prepaid expenses are reported as short-term or long-term prepaid expenses on the balance sheet and amortised over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

Prepaid expenses of the Company include:

Repairing expenses, tools and equipment

Tools and equipment's has been put into use are amortised to expense under the straight-line method to amortise time not exceeding 3 years.

4.8 Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation.

The historical cost of tangible fixed assets include all the expenses that the Company incurs to get fixed assets by the time the asset is put into a state ready for use. Costs incurred after initial recognition is only recorded as increase in cost of fixed assets if these costs are sure to increase economic benefits in the future by using this assets. The costs incurred are not satisfied conditions are recognized as an expense in the period.

TN

EM VI

For the six-month period ended 30 June 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

When selling or liquidating assets, their cost and accumulated depreciation of the assets are written off in the financial statements and any gain or loss which are arising from disposal are recorded in the income statement.

Depreciation of tangible fixed assets which is calculated under the straight-line depreciation method with useful time of the asset is estimated as follows:

Building and structure	05 – 25
Machinery and equipment	05 – 10
Transportation	05 – 10
Office equipment	03 – 05

4.9 Intangible fixed assets

Intangible fixed assets are stated at cost less accumulated depreciation.

The historical cost of intangible fixed assets include all the expenses that the Company incurs to get fixed assets by the time the asset is put into a state ready for use. Costs related to intangible assets incurred after initial recognition are recognized as expenses in the period, unless these costs are associated with an intangible asset and increase economic benefits from these assets.

When assets are sold or retired, their cost and accumulated depreciation are removed from the balance sheet and any gain or losses resulting from their disposal are recognized in other income or other expense.

The Company's intangible fixed assets include:

Copyright of stem cells usage

All the actual costs that the Company spent related directly to copyright of stem cells usage. The copyright of stem cells usage of the Company is amortised in 3 years.

Land use rights

Land use rights are all the actual costs that the Company spent related directly to the land use, includes: money spent to have the right to use land, compensation and site clearance expense, leveling, registration fee,... The land use right of the Company is recorded according to cost base and is not amortised.

Computer software

The expenses of purchasing computer software, which is not a part associated with the relevant hardware, will be capitalised. The initial cost of computer software includes all the expenses paid until the date the software is put into use. Computer software is amortised according to straight —line method in 2-5 years.

4.10 Construction in progress

Construction in progress presents costs that are directly related (including related interest expenses in accordance with the Company's accounting policy) to assets under construction, machinery and equipment being installed for production, leasing and management purposes as well as costs related to the repair of fixed assets in progress. These assets are stated at cost and are not depreciated.

G TH HH TO A

Years

For the six-month period ended 30 June 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

4.11 Accounts payables and accrued expenses

Accounts payable and accrued payable are recognized for amounts to be paid in the future, which are related to the goods and services received. Accrued payables are recorded based on reasonable estimates of the amounts payable.

The classification of liabilities is trade payable, accrued expenses and other payables are in accordance with the following principles:

- Trade payables reflects the payables occurring from the commercial transactions with purchase of goods, services, property and the seller, which is an independent unit with the Company.
- Accrued payables reflect the amounts payable for goods and services received from the seller or has provided to the buyer but not paid due to no or insufficient billing records, accounting records and payable to employees on sabbatical salary, production costs that must be accrued.
- Other payables reflect the payables from non-commercial payables and not relate to the purchase sale transactions.

4.12 Salary

Salary expenses are determined based on salary, wage and allowances as stated in agreed-upon labor contracts.

4.13 Salary deduction

Social insurance is deducted base on salary under labor contract at a cost of 17.5% and deducted from employees' salaries 8%.

Health insurance is deducted base on salary under labor contract at a cost of 3% and deducted from employees' salaries 1.5%.

Unemployment insurance is deducted base on salary under labor contract at a cost of 1% and deducted from employees' salaries 1%

Trade unions fees deducted on salaries to the cost of 2%.

4.14 Unrealized revenue

Unrealized revenue is an advance revenue mainly consisting of prepayments from customers for one or more accounting periods for asset leasing.

The Company recognizes unrealized revenue in proportion to the obligations that the Company will have to perform in the future. When the revenue recognition conditions are met, unrealized revenue is recognized in the income statement for the period corresponding to the portion that satisfies the revenue recognition condition.

4.15 Owners' equity

Contributed capital of the owner

Capital is recorded according to the amount actually invested by shareholders.

Surplus of stock capital

Surplus of stock capital are recognized at the difference between the issued price and face value of shares when first released, the release added, the difference between the price reissued and the book value of treasury shares and structures the capital of the convertible bond at maturity. Direct expenses related to the issuance of additional shares and treasury shares reissued are reduced Surplus of stock capital.

10/

For the six-month period ended 30 June 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

Treasury shares

When repurchasing shares issued by the Company, the payment including transaction-related expenses is recognized as treasury shares and recorded as a deduction in equity. When reissuing, the difference between the re-issuance price and the book price of treasury shares is recorded in the item "Equity surplus".

Funds

Funds are set up and used in accordance with the Company's Charter.

4.16 Profit distribution

Profit after corporate income tax is distributed to shareholders after the deduction of funds under the Charter of the Company and the provisions of the law which were approved by the General Meeting of Shareholders.

The distribution of profits to shareholders is considered non-monetary assets and liabilities in net undistributed profit may affect cash flow and ability to pay dividends as profit from revaluation of assets contributed as capital and interest due to the revaluation of monetary items, the financial instruments and non-monetary items other.

Dividends are recognized as liabilities when approved by the General Meeting of Shareholders.

4.17 Revenues

Revenues from sales of goods

Revenues from sales shall be recognized if it simultaneously meets the following five (5) conditions:

- (a) The Company has transferred the majority of risks and benefits associated with the right to own the products or goods to the buyer;
- (b) The Company no longer holds the right to manage the goods as the goods owner, or the right to control the goods;
- (c) Revenues from sales has been determined with relative certainty. When the contract states that the buyer is entitled to return the purchased products and goods under specific conditions, the Company can only recognize revenue when those specific conditions no longer exist and the buyer is not entitled to return the product ((except for return in the form of exchange for other goods or services);
- (d) The Company has gained or will gain economic benefits from the good sale transaction;
- (e) It is possible to determine the costs related to the goods sale transaction.

Property rental revenue

Property rental revenue is recognized on the principle of allocating the rental amount received in advance in accordance with the rental period

Revenues from rendering services

The revenue of transaction related to the provision of services is recorded when the result of the transaction can be measured reliably. In case that the services are to be provided in many accounting periods, the determination of sales in each period is done on the basis of the service completion rate as of the balance sheet date. The result of this transaction can be measured reliably when satisfy all four conditions:

SIN * THE

For the six-month period ended 30 June 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

- (a) Revenue can be measured reliably;
- (b) It is possible to obtain economic benefits from the service provision transaction;
- (c) The work volume finished on the date of making the accounting balance sheet can be determined;
- (d) The costs incurred from the service provision transaction and the costs of its completion can be determined.

Interest

Interest is recognized on an accrual basis, are determined on the balance of cash in bank and the actual interest rate for each period.

Distributed dividends and profits

Dividends and distributed profits are recognized when the Company is entitled to receive dividends or profits from capital contributions. Dividends received in shares are only tracked for the number of additional shares, not the value of shares received.

4.18 Loan expenses

Loan expenses are loan interest and other costs incurred in direct relation to loans of an enterprise.

Loan expenses are recognised as financial expense for the period except where Loan expenses directly related to the construction investment or production of uncompleted assets shall be accounted into the value of such assets (capitalized). The capitalization of Loan expenses shall terminate when the major activities necessary to prepare the uncompleted asset for its intended use or sale are completed.

4.19 Operating lease

A lease is considered an operating lease when the lessor retains most of the benefits and bears the risk of ownership of the asset. Operating lease expenses are recognized in the income statement over the lease term on a straight-line basis over the leasing term.

4.20 Corporate income tax

Corporate income tax expenses for the year comprises only current income tax.

Current income tax

Current income tax is the tax amount is calculated on taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between accounting and tax, non-deductible expenses as well as adjusted income are not taxed and losses be transferred.

Tax settlement of the Company will be assessed by the Tax Department. Due to the application of laws and regulations on taxes for different incurred transactions which can be explained in many different ways, tax payable presented in the financial statements can be immediately changed according to the decision of the tax authorities.

4.21 Segment reporting

A business segment is a distinguishable component that is engaged in providing a product or service and that has its own risks and returns which are different from those of other business segments.

For the six-month period ended 30 June 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

A geographical segment a distinguishable component that is engaged in providing a product or services in a particular economic environment and that has its own risks and returns which are different from of segment operating in other economic environment.

4.22 Financial instrument

Financial assets

The classification of financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. Financial assets of the Company include cash and cash equivalents, customer receivables and other receivables.

At the time of initial recognition, financial assets are determined at cost plus any costs directly transaction of such financial assets.

Financial liabilities

The classification of financial liabilities depends on the nature and purpose of the financial liabilities and is determined at the time of initial recognition. Financial liabilities of the Company include payable to suppliers, accrued expenses and other payables.

At the time of initial recognition, except for financial liabilities related to financial leasing and convertible bonds are recorded at cost allocation, other financial liabilities are determined at cost plus costs directly transaction of such financial liabilities.

Amortized cost is determined by the value of the initial recognition of financial liabilities minus principal repayments, plus or minus the cumulative amortization of interest calculated at the actual interest rate method of the difference between the value initially recognized and the maturity value, minus deductions (directly or through the use of a provision) by reducing the value or by irrevocable.

The real interest method is a method of calculating the amortized cost of one or a Company of financial liabilities and amortizing the interest income or interest expense in the relevant period. Real interest rate is the interest rate discounting the cash flows estimated to be paid or received in future during the expected lifetime of the financial instrument or a shorter, if necessary, return to the current book value net financial liabilities.

Owner's equity instruments

Owner's equity instruments are contracts that prove benefits remaining about asset of Company after deducting all of its obligation.

Offsetting of financial instruments

The financial assets and financial liabilities are offset and the net amount is presented on the balance sheet, and if only:

- The Company has the legal right to offset the values were recognized, and
- It intends to pay on a net basis or recognized assets and paid liabilities at the same time.

4.23 Related parties

The parties are related if having the ability to control or significant influence across the decision making of financial policies and operations. Parties are also considered to be related if they are subjected to common control or common significant influences.

FINANCIAL INSTRUMENTS 8.

The Company has financial assets such as trade receivables and other receivables, cash and short-term deposits that occur directly from the operations of the Company. Financial liabilities of the Company mainly include loans, payables to suppliers and other payables. The main purpose of these financial liabilities is to mobilize financial resources to serve the activities of the Company.

The Company has market risk, credit risk and liquidity risk.

Operational risk management is indispensable operations for the entire operations of the Company. The Company has developed control system to ensure balance between the extent reasonable costs incurred when risk and risk management costs. The Company has not implemented measures to prevent this risk due to lack of a market to purchase financial instruments.

The Board of General Directors considered and uniformly applies policies to manage each of these risks are summarized below:

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk has four types of risk: interest rate risk, currency risk, goods price risk and other price risk, such as equity price risk.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Market risk for changes in interest rates of the Company primarily relating to cash, short term deposits, and loans of the Company.

The Company managing interest rate risk by analyzing the competitive situation in the market to acquire beneficial interest for the purposes of the Company and remain within the limits of their risk management.

Foreign currency risk

Foreign currency risk is the risk that the fair value of the future cash flows of a financial instrument will fluctuate because of changes in exchange rates. The Company bears the risk of changes in exchange rates, which are directly related to the business operations of the Company.

For the six-month period ended 30 June 2024

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

Stock price risk

The shares held by the Company are affected by market risks arising from uncertainty about the future value of the investment shares. The company manages stock price risk by setting investment limits. The Board of General Directors also reviews and approves investment decisions in shares. The Company considers the share price risk to be negligible.

ii. Credit risk

Credit risk is the risk that one party of a financial instrument or contract not performing its obligations, resulting in financial losses. The Company has credit risk from its operating activities (primarily for trade receivables account), and from its financial activities, including bank deposits and other financial instruments.

Trade receivables

The Company regularly monitors the receivables, which is not yet collected. For big customers, the Company considered the decline in the credit quality of each customer at the reporting date. The Company seeks the way to remained the tight control of the receivables and arranging credit control staff to minimize credit risk. On this basis and the trade receivables of the Company related to many different customers, credit risk is not significantly concentrated in a certain customer.

Cash in bank

The Company mainly maintains deposit balances at banks, which is well known in Vietnam. Credit risk of the deposit balances at banks is managed by the treasury department of the Company under the policies of the Company. The maximum credit risk of the Company for the items on the balance sheet at the end of the financial year is the value book as presented in Note 5.1. The Company found that the level of concentration of credit risk on bank deposits is low.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulties in implementing their financial obligations due to lack of funds. Liquidity risk of the Company mainly arising from financial assets and financial liabilities with maturity mismatches.

The Company minimizes the liquidity risk by maintaining an amount of cash and cash equivalents and bank loans at a level that the General Director supposes it is sufficient to meet the Company's operations and minimize the risks due to the volatility of cash flows.

The table below summarizes the maturity of the financial liabilities of the Company based on expected payments on undiscounted basic contracts:

Less than 1 year	From 1 to 5 years	Total
VND		VND
68,504,152,099	4	68,504,152,099
