## INDEPENDENT AUDITOR'S REPORT

**To: The Shareholders, the Board of Directors and the Board of General Directors  
Mekophar Chemical Pharmaceutical Joint-Stock Company**

We have audited the accompanying consolidated financial statements of Mekophar Chemical Pharmaceutical Joint-Stock Company and its subsidiary (referred to as "the Company"), prepared on 24 March 2025, as set out from page 6 to 40, which comprise the Consolidated Balance sheet as at 31 December 2024, the Consolidated Income statement, the Consolidated Cash flow statement for the fiscal year then ended and the Notes to the Consolidated Financial statements.

### The Board of General Directors' responsibility

The Board of General Directors of the Company is responsible for the preparation and fair presentation of these consolidated financial statements of the Company in accordance with the Vietnamese Accounting Standards, Vietnamese Accounting System and comply with relevant statutory requirements to preparation and presentation of the consolidated financial statements and for such internal control as the Board of General Directors of the Company determines is necessary to enable the preparation and presentation of these consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An auditor involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of General Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Auditor's opinion

In our opinion, the accompanying consolidated financial statements give a true and fair view of, in all material respects, the consolidated financial position of the Company as at 31 December 2024 and the results of its consolidated operations and its consolidated cash flows for the fiscal year then ended in accordance with the Vietnamese Accounting Standards, Vietnamese Accounting System and comply with relevant statutory requirements to the preparation and presentation of the consolidated financial statements.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 4.1 Basis of preparation the consolidated financial statements

The consolidated financial statements include the financial statements of the Parent Company and the financial statements of subsidiaries controlled by the parent company until the date of the annual report. The control is achieved when the parent company has the ability to control the financial and operating policies of investee companies to obtain benefits from the activities of these companies.

Operating results of subsidiaries which acquired or disposed during the year are presented in the consolidated statement of operations from the date of purchase or to the date of sale of investments in those subsidiaries.

In case of necessity, the financial statements of subsidiaries are adjusted to the accounting policies applied in the parent company and its subsidiaries are the same.

All transactions and balances between companies in the Company are eliminated on consolidation of financial statements.

Non-controlling interest in net assets of consolidated subsidiaries are identified as a target separately from the equity component of the shareholders of the parent company. Interests of non-controlling shareholders include the value of the benefit of non-controlling shareholders as at the initial business combination and share the interests of non-controlling shareholders in the volatility of the total equity since the date of incorporation most business. The losses corresponding to the capital of non-controlling shareholders exceed their share of equity in the total equity of the subsidiary are charged against the interests of the Company unless the non-controlling shareholders have a binding obligation and have the ability to offset such losses.

#### Business consolidation

Assets, liabilities and contingent liabilities of the subsidiaries are determined under the fair value at the acquisition date. Any additional terms of the cost of acquisition below the fair value of identifiable net assets acquired is recorded as goodwill. Any deficiency of the cost of acquisition and the fair value of total assets acquired is recognized in the results of operations of the accounting period incurred acquisition activity.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2024

*These notes form an integral part of and should be read in conjunction with the accompanying financial statements.*

### 4.2 Accounting Estimates

The preparation of consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System and the relevant statutory requirements relating to the preparation and presentation of consolidated financial statements requires that the Board of General Directors must make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements as well as the reported amounts about revenues and expenses over the year of operation. Although accounting estimates are made with all known knowledge of the Board of General Directors, actual amounts incurred may differ from estimates, assumptions.

### 4.3 Foreign currency transactions

In the year, transactions in currencies other than VND during the year have been translated into VND at exchange rates ruling at the date of the transaction. The balances of monetary items denominated in foreign currencies at the period end date are converted by the buying transfer exchange rate and selling exchange rate of the commercial bank which the Parent Company and its subsidiaries have often transactions prevailing on this date.

Exchange differences arising during the year from transactions in foreign currencies are recognized in the financial income or financial expense. Exchange differences arising from revaluation of monetary items denominated in foreign currencies at the balance sheet date after off-setting the differences is recognized in the financial income or financial expense.

### 4.4 Cash and cash equivalents

Cash comprises cash on hand, cash in banks (demand deposits) and cash in transit. Cash equivalents are short-term highly liquid investments with an original maturity of three months or less which are readily convertible into known amounts of cash and which are subject to an insignificant risk of change in value at the report date.

### 4.5 Financial investments

#### Trading securities

Trading securities include stocks and bonds listed on the stock market; securities and other financial instruments held for trading purposes (including securities bought and sold for profit with a maturity of more than 12 months).

Trading securities are recorded at cost, including: Purchase price plus purchase costs (if any) such as brokerage expense, transaction expense, information provision, taxes, and banking fees. The original price of trading securities is determined according to the fair value of the payments at the time of the transaction. Trading securities are recorded at the time when investors have ownership, specifically: Listed securities are recognized at the time of order matching (T+0) and unlisted securities are recorded at the time of official ownership in accordance with the law.

Provision for devaluation in value of trading securities is made for possible loss in value when there is firm evidence of the market value of those securities held by the Company for trading purposes at the time of preparation of the financial statements.

#### Held-to-maturity investments

Investments are classified as held to maturity when the Company has the intention and ability to hold to maturity. ## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2024

*These notes form an integral part of and should be read in conjunction with the accompanying financial statements.*

Investments held to maturity are initially recognized at cost including purchase price and the expenses related to the purchase of investments. After initial recognition, these investments are stated at recoverable value. Interest income from investments held to maturity after the acquisition date is recognized in the Income statement on an accrual basis. Rates enjoyed before the holding is deducted from the cost of acquisition.

When there is strong evidence suggesting that part or all of the investments may not be recoverable and the damage can be measured reliably, the loss is recorded in financial expenses in the year and reduced directly to investment value.

When an investment is liquidated, the difference between the net disposal proceeds and the carrying amount is recognized as income or expense.

### Investments in other entities

Investments in other entities are investments in equity instruments of another entity but the Company does not have control, joint control or significant influence over the investee.

These investments are initially recognized at cost, which includes the purchase price or capital contribution plus any directly attributable costs of the investment. The Board of Management reviews these investments to recognize any provision at the end of the accounting period.

Provisions for loss of investments in equity instruments of other entities are made as follows:

- For an investment in listed shares or the fair value of the investment is reliably determined, the provision is based on the market value of the shares.
- For investments whose fair value cannot be determined at the time of preparing financial statements, provision is made based on the investee's loss with an allowance equal to the difference between the actual contributed capital of the investee and the investor multiplied by the Company's capital contribution ratio compared to the total actual contributed capital of the parties in the other entity.

Increase or decrease in provision for diminution in value of investments in other entities have recorded at the end of the fiscal year, and is recognized in the financial expense.

## 4.6 Receivables

Trade and other receivables are stated at cost less provision for doubtful debts.

The classifications of receivables are trade receivables and other receivables, which complied with the following principles:

- Trade receivables reflect the nature of the receivables arising from commercial transactions with purchase - sale between the Company and an independent purchaser.
- Other receivables reflect the nature of the receivables arising from non-commercial transactions, and not to be related to the purchase – sale transactions.

The provision for doubtful debts represents the estimated loss due to non-payment arising on receivables that were outstanding at the balance sheet date. Increases and decreases to the provision balance are recognized as general and administrative expense in the Consolidated Income statement.

## 7. FINANCIAL INSTRUMENTS

The Company has financial assets such as customer receivables and other receivables, cash and short-term deposits that occur directly from the operations of the Company. Financial liabilities of the Company mainly include loans, payables to suppliers and other payables. The main purpose of these financial liabilities is to mobilize financial resources to serve the activities of the Company.

The Company has market risk, credit risk and liquidity risk.

Operational risk management is indispensable operations for the entire operations of the Company. The Company has developed control system to ensure balance between the extent reasonable costs incurred when risk and risk management costs. The Company has not implemented measures to prevent this risk due to lack of a market to purchase financial instruments.

The Board of General Directors considered and uniformly applies policies to manage each of these risks are summarized below:

#### i. Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk has four types of risk: interest rate risk, currency risk, goods price risk and other price risk, such as equity price risk.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2024

*These notes form an integral part of and should be read in conjunction with the accompanying financial statements.*

### *Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Market risk for changes in interest rates of the Company primarily relating to cash, short term deposits, and loans of the Company.

The Company is managing interest rate risk by analyzing the competitive situation in the market to acquire beneficial interest for the purposes of the Company and remain within the limits of their risk management.

### *Foreign currency risk*

Foreign currency risk is the risk that the fair value of the future cash flows of a financial instrument will fluctuate because of changes in exchange rates. The Company bears the risk of changes in exchange rates, which are directly related to the business operations of the Company.

### *Stock price risk*

The shares held by the Company are affected by market risks arising from uncertainty about the future value of the investment shares. The company manages stock price risk by setting investment limits. The Board of General Directors also reviews and approves investment decisions in shares. The Company considers the share price risk to be negligible.

## **ii. Credit risk**

Credit risk is the risk that one party of a financial instrument or contract not performing its obligations, resulting in financial losses. The Company has credit risk from its operating activities (primarily for trade receivables account), and from its financial activities, including bank deposits and other financial instruments.

### *Trade receivables*

The Company regularly monitors the receivables, which is not yet collected. For big customers, the Company considered the decline in the credit quality of each customer at the reporting date. The Company seeks the way to remained the tight control of the receivables and arranging credit control staff to minimize credit risk. On this basis and the trade receivables of the Company related to many different customers, credit risk is not significantly concentrated in a certain customer.

### *Cash in bank*

The Company mainly maintains deposit balances at banks, which is well known in Vietnam. Credit risk of the deposit balances at banks is managed by the treasury department of the Company under the policies of the Company. The maximum credit risk of the Company for the items on the balance sheet at the end of the financial year is the value book as presented in Note 5.1. The Company found that the level of concentration of credit risk on bank deposits is low.

## **iii. Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulties in implementing their financial obligations due to lack of funds. Liquidity risk of the Company mainly arising from financial assets and financial liabilities with maturity mismatches.

The Company minimizes the liquidity risk by maintaining an amount of cash and cash equivalents and bank loans at a level that the Board of General Directors supposes it is sufficient to meet the Company's operations and minimize the risks due to the volatility of cash flows.

(\*) The Company has not revaluated its financial assets and financial liabilities at their fair values as at 31 December 2024 and 01 January 2024. However, the Board of General Directors believes that the fair value of these financial assets and liabilities is not significantly different from their carrying amounts as at the balance sheet date.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2024

*These notes form an integral part of and should be read in conjunction with the accompanying financial statements.*

### (2) Basis of determining fair value

#### Accounts receivable and other receivables

The fair value of accounts receivables and other receivables, excluding accounts receivable and payable under the scheduled progress of construction contracts, is estimated based on the present value of cash flows future, discounted at market interest rates at the report date. The fair value of these instruments is determined only intended disclosures.

#### Non-derivative financial liabilities

Fair value, measured for disclosure purposes only, is calculated based on the present value of future cash flows to pay principal and interest, discounted at market rates at the balance sheet date.
